Statewide Winter Weather Event

Steady rain and gusty winds was developed late today and continue into Wednesday. Another 1 to 3 inches of rain is expected over the Camp Fire burn scar with this system, with the heaviest rainfall rates likely tonight. Thunderstorms are NOT expected, and rainfall rates should remain below critical thresholds. South winds will increase tonight to 15 to 30 mph with gusts of 40 to 50 mph. Drier conditions will develop on Thursday. The next chance of precipitation will be over the weekend.

Burn Scar Thresholds for Northern and Southern California

- NWS and NOAA are not predicting that the current storms will reach these debris flow rainfall rate thresholds.
- The involved OAs, along with state and federal partners are continuing to monitor the storms as they come in and are ready to respond if necessary.

Cal OES INLAND REGION

- See the Statewide Winter Weather Event

Cal OES COASTAL REGION

Cold Weather Event, Coastal Counties

A series of winter storms will continue to impact the region. Humboldt, Marin, San Mateo, Santa Clara and Mendocino counties have activated their cold weather response plans and opened additional beds in shelters and/or warming centers in response to cold overnight temperatures. Social media is being used to alert many communities of the extended hours for shelter beds and warming centers.

- Santa Clara County, still has their extra shelter beds, and their Warming Centers will run through tomorrow or be reevaluated via Weather Service for tomorrow's storm impacts.
- Humboldt, Marin, San Mateo, and Mendocino Counties will continue with their extra shelter beds and monitoring needs.

Cal OES SOUTHERN REGION

Mudslide, State Route 23, Los Angeles County

At 0957 hours on 01/07/19, the California State Warning Center (CSWC) was notified by Caltrans that mudslides occurred on State Route 23. The route is currently closed from the Junction of State Route 1 to 6.7 miles north of State Route 1 and Mulholland Highway.

- This is not a lifeline route.
- Alternate routes are available.
- These mudslides occurred in the Woolsey burn area.
- No request for state assistance at this time.
- No estimated time of reopening.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Flood Watch for portions of Siskiyou County below 6000 feet through 2200 hours Wednesday.
 - Landslides and debris flows are possible during this flood event. People, structures and roads located below steep slopes, in canyons and near the mouths of canyons may be at serious risk from rapidly moving landslides.
 - Recent severely burned areas will also be at risk of debris slides.
- Winds will increase today as a weather system impacts Northern CA.
 - Gusts to 20 mph will be possible today.
- Rain is possible on Wednesday over the burn scar, but will be isolated in nature.

SOUTHERN CALIFORNIA

- Today will be mostly clear skies, with dry conditions and near normal temperatures.
- Additional storm systems will impact the region mid to later this week.
